

DESIGNER SERIES

PRACTICAL.
PORTABLE.
PERFECT.

H & H
BATH AND SAFETY

ACCESSIBLE STYLE.
NOW YOU CAN
HAVE IT ALL.

At H & H Bath and Safety, we believe that you should not have to compromise between personal safety and personal style. Now you can enjoy the security of bath accessories that combine all-American quality craftsmanship with the highest standards of safety in their class, for a beautifully crafted alternative to accessibility in the bathroom.

The Designer bench seat enables consumers to enjoy a shower at home with real peace of mind. Designed to facilitate mounting from a grab bar, the Designer bench seat is constructed from sturdy phenolic (white or teak) and a satin stainless steel frame that is equally at home in traditional and contemporary bathroom settings. Like the rest of the Designer series, the Designer bench seat is designed for safety, security, portability, and comfort.
