ACCESSIBILITY BATH PRODUCTS

Our Capabilities

Our customers appreciate the opportunity to work with a partner who brings unparalleled expertise in accessibility fixtures to every project.

Four distinctive product lines

Choose from our Standard, Designer, Bath Accessories or Commercial series product offerings for a wide variety of accessibility and washroom needs.

Custom fabrication services

We offer full engineering and design capabilities on site at our expansive Long Beach, Calif., headquarters, including state-of-the-art CAD/CAM capabilities, precision metal production, a polishing department, custom tooling, laser cutting and powder coating operations, prototype creation, testing, domestic and import production capabilities and Supplier Managed Inventory (SMI) programs.

Global sourcing capabilities

We work with a worldwide network of factories and manufacturers, for items that range from raw materials to finished goods – and we enforce rigid Quality Assurance oversight, to ensure that your finished product meets the highest standards.

Industry expertise

We are happy to serve as an advisory resource for customers who require assistance in achieving Americans with Disabilities Act (ADA) compliance for their properties or businesses. We draw upon extensive knowledge of ADA guidelines, and can assist with compliance with federal and state guidelines for load requirements and other safety standards.

Sustainability

H & H Bath and Safety embraces an eco-friendly philosophy, using recycled materials whenever possible, for products that are 100% recyclable in finished form and ready for Leadership in Energy and Environmental Design (LEED) compliance.

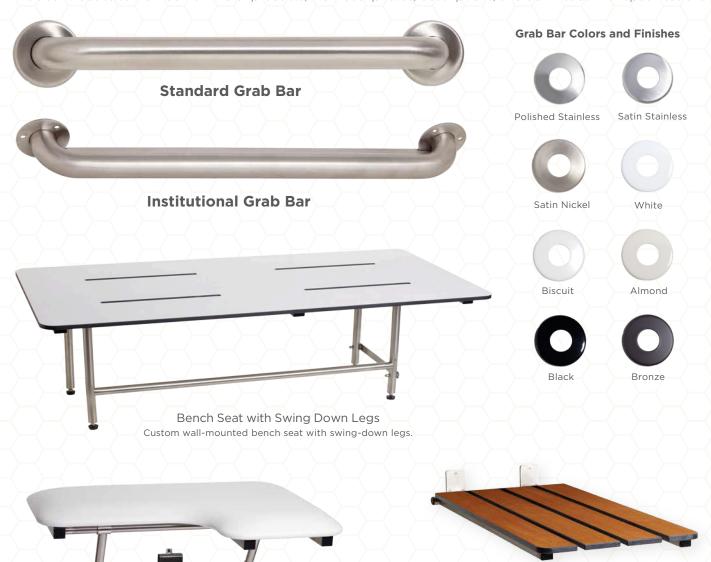

- Standard series products are made from #304 stainless steel, phenolic white, teak,
 HDPE, padded naugahyde and solid-surface materials.
- The Standard product line incorporates our expertise in ADA guidelines, to ensure safety and compliance over longterm use.
- We use recycled materials whenever possible, to ensure that finished products are LEED compliant.
- Standard series grab bars and accessibility seats are Winglts compatible.
- Standard series products are proudly made in the USA.

Sample Standard Series Products

Compact Folding Seat

Shown with our padded white naugahyde seat top.
All seat designs can be custom-made to your unique specifications.

End Mount Tub Seat

Shown here with slats, but also available in a solid one-piece seat top (PTS).

- Designers series products combine functional support, durability and style, to promote selfreliance, confidence and quality of life for end consumers.
- Designers grab bars are crafted from #304 stainless steel, which is 100% recyclable in its finished form and helps to support LEED compliance.
- Silhouette and Profile seats are made using long-lasting phenolic materials available in white and teak finishes.
- Product designs and installation guidelines are developed in alignment with ADA requirements, to provide secure structural options.
- Designers series products are proudly made in the USA.
