

# H & H's HOME SAFETY CHECK

## REDUCE COSTS WITH EVIDENCE-BASED PREVENTATIVE HOME SAFETY SOLUTIONS

America's First and Only  
**150+ POINT  
HOME SAFETY  
INSPECTION**

H & H is helping Hospitals protect their bottom line by offering their clients' options to ensure their safety at home. Introducing the *first-of-its-kind* H & H HOME SAFETY CHECK – an evidence-based, advanced In-Home Safety Assessment which creates a new standard of care to help keep patients, and the workers who assist them, safer in their homes.

### WHO IS THE HOME SAFETY CHECK FOR?

- People transitioning home from the hospital
- People recently injured or who have experienced a fall
- People who want to avoid re-injury and re-hospitalization after a hospital stay
- Those desiring to Age-in-Place longer without fear of injury

**H & H's Home Safety Check can reduce falls and associated hospitalization costs by up to 60%, with zero cost to the hospital**

### THE HOME SAFETY CHECK – KEY BENEFITS FOR HOSPITALS

- By incorporating our home safety solutions as part of your client discharge protocol, your hospital takes an important step towards reducing the risks and costs associated with injuries which occur at home
- Implementing H & H's Home Safety Check solution can reduce costs associated with injury at no cost to the hospital
- All Home Safety Check programs can be customized to the specific needs of the participating hospital or hospital network

#### H & H's Home Safety Check Program for Hospitals:

- Reduces overall costs of re-hospitalization and HHRP Penalties
- Can be easily incorporated into standard hospital discharge procedures
- Keeps patients safer once they transition home from a hospital
- Greatly reduces chance of injury from home environmental hazards – which negatively impact the lives of the patients and increase the chance of re-hospitalization
- Makes patients with pre-existing conditions safer at home after leaving the hospital

**DID YOU KNOW?** Our Home Safety Specialists are full-time, background-checked, drug-tested, certified, trained and insured. We own the entire process and do not use contractors.

### WHAT IS THE HOME SAFETY CHECK ?

#### THE OVERVIEW

- The Home Safety Check combines ADA building codes, evidence-based fall prevention research and patient mobility standards to create a comprehensive checklist with built-in corrective recommendations

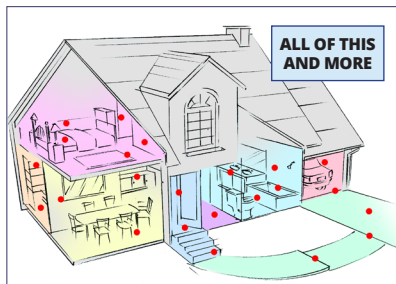

#### THE INSPECTION

- A 150+ Point Home Safety Inspection of one's entire home and property for safety hazards – curb to fence, floor to ceiling, and everywhere in between

#### THE REPORT

- Once the inspection is completed, we deliver a comprehensive report with photos, detailed issues/notes, and ADA-complaint recommendations delivered via email

### WHAT THE HOME SAFETY CHECK COVERS

**SAFER HOMES MEANS REDUCED HEALTHCARE COSTS**

### HOME SAFETY CHECK – KEY FEATURES

- Developed over the course of 2 years through evidence-based research from the CDC, ADA and other organizations
- Utilizes ADA standards
- Extra focus on areas of the homes where falls most often occur

H & H's proprietary Home Safety Check is setting the standard for In-Home Safety. Contact us to find out more about how your hospital and its patients can benefit from H & H's Safety Services.
